WaterScope sign-up instructions

METRON

What is WaterScope®?

Accurate, 1-minute water consumption data isn't useful unless you can understand it. That's where WaterScope comes in. It's the portal where you can see all the water usage data captured by your Metron water meter(s).

Offering leak alerts, usage summaries and details, violation alerts (such as irrigating on off-days) and easy integration with billing systems, WaterScope turns water consumption data into something you can take action on.

This document walks through the steps to get started with WaterScope.

How To Sign Up

- Go to <u>www.waterscope.us</u>
- Click on "Register":

• Enter the VN ID number from your meter's barcode label, and the account number from your Metron invoice:

sumer
Cancel

• If you're registering multiple meters, you can click "Yes" here; or you can click "No" and add them later.

Consumer Registra	tion			×
Do you want to add ano Note - Please click No if	ther meter? this is the only meter you are	registering at this time
